

Work progress and achievements during the period – WP Leaders Only

Please provide a concise overview of the progress of the work in line with the structure of Annex I of the JU Grant Agreement.

For each work package *except project management*, please provide the following information:

WP 6- Leader HAI	
Period: 1 September 2011- 31 August 2012	
1	<i>A summary progress towards objectives, supported by measurable indicators and details for each task and each partner</i>
	The workpackage has not started, though partners are discussing the «core nSHIELD platform» with respect to requirements and use cases
2	<i>Highlight clearly significant and tangible results</i>
	The discussions in the first year focussed on how to turn «measurable security» into a platform, and how to define the core of the platform and the interfaces towards application specific extensions.
3	<i>If applicable, explain the reasons for deviations from Annex I and their impact on other tasks as well as on available resources and planning</i>
	No deviations
4	<i>If applicable, explain the reasons for failing to achieve critical objectives and/or not being on schedule and explain the impact on other tasks as well as on available resources and planning (the explanations should be coherent with the declaration by the project coordinator)</i>
	Not applicable yet
5	<i>a statement on the use of resources, in particular highlighting and explaining deviations between actual and planned person-months per work package and per beneficiary in Annex I (Description of Work)</i>
	Not applicable yet
6	<i>a statement on the information flow between the Project and other related Project(s) part-financed under the ARTEMIS JU, the Community Frame Work Programme, and/or National Research Programmes)</i>
	The partners of WP6 are actively contributing to the discussion of the nSHIELD technology developments
7	<i>a statement on the dissemination activities and exploitation perspectives including an updated positioning with respect to the competitive situation in the field addressed by the Project and to other Projects (inside and outside ARTEMIS JU)</i>
	The main focus is to identify functionality of the core platform, and how the nSHIELD architecture can be used to address requirements of use cases.
8	<i>If applicable, propose corrective actions</i>
	Not applicable
