FAQ - frequently asked questions [\[edit\]](#)

Please find attached a list of questions and answers on the **first time usage** of the GravidPluss app. For other question, please visit [GravidPluss App usage](#).

Glucose Measurements [\[edit\]](#)

How do I activate the meter for the first time?

1. Use a needle / sharp object to press the set button. Continue pressing until the display shows "couples".
2. Then press the M button so it says "Yes" on the screen.
3. Press set button (with needle / sharp object) again, then the display shows CLr. The device will automatically turn off and the blue lights will start flashing. This means that Bluetooth is enabled.

Note! The batteries of the meter need to complete-charged at least once every 6 months.

How do I transfer glucose values automatically to my cell phone?

1. Check that the Bluetooth function on your mobile is switched on. You'll see a small  icon in the top of the screen. If Bluetooth is not switched on, to the following: On iPhone: Settings- General- turn on Bluetooth or Android mobile: Settings- Bluetooth
2. Open the GravidPluss App
3. Then turn off the Diamond Mini Glucosemeter. Bluetooth on the meter will then be activated.
4. Press "automatic transfer" (*automatisk overføring*) in the app, The values will be automatically transferred.

The screenshot shows the ownCloud file manager interface. The browser address bar displays <https://owncloud.unik.no/index.php/apps/files/>. The interface includes a sidebar with navigation options like 'All files', 'Favorites', 'Shared with you', 'Shared with others', 'Shared by link', 'Deleted files', and 'Settings'. The main area shows a list of files and folders:

Name	Size	Modified
Documents	35 kB	a few seconds ago
Gravid+ apps	3.5 GB	a month ago
GravidPluss	1.4 GB	15 hours ago
Photos	663 kB	a few seconds ago
ownCloud_User_Manual.pdf	2.1 MB	a few seconds ago

At the bottom of the list, it indicates '4 folders and 1 file' with a total size of '4.8 GB'. A handwritten blue circle highlights the 'GravidPluss' folder, and a handwritten arrow points from it to the text 'Server Pages'.

Example

Name ▲	Size	Modified
 Blodsukker	9 kB	3 months a
 Diabetes → 135.html	100 kB	4 days ago
