Upscaling energy transition and digitalization while meeting the 1.5°C target – a critical reflection

Josef Noll,

Professor, University of Oslo, Department of Technology Systems

Kjeller, Norway, m: +47 9083 8066, e: josef@jnoll.net

How can we lift Climate Actions?

→ Answer the needs of people in Africa

- decent work -> decentralised energy, ...
- zero hunger -> work
- good health -> information
- ...

→ Energy & Information are key

- and will lead to climate action

Aspects to consider

- Information & information access
 - gamification
 - incentives

- Competence energy & digital
 - IoT4energy, IoT4empowerment

- Framework conditions
 - with CAPEX - tax incentives energy
 - with risk reduction for companies
