Secure COnnected Trustable Things

Toktam Ramezanifarkhani

UiO

13th September

Progress

- General progress (useful for SP3):
- https://projects.avl.com/16/0094/WP01/_layouts/15/WopiFrame2.aspx?sourcedoc=/16/0094/WP01/Documents/04_Documents/SCOTT_Baseline%20Proposed%20Requirements_010917.pptx&action=default

- SCOTT-Multi-metrics assessment for measurable security and privacy
  - Have submitted a paper
  - Cooperation with some related works
- SCOTT-Semantic Attribute Based Access Control (S-ABAC)
  - A paper will be submitted soon
  - New students may join

Important Notes and Reminders

- Relation between TL and UC, **TL and BB** (is this the main)

- In Master and requirements, relation between BBs, UC and Requirements do not match:

https://projects.avl.com/16/0094/WP06/_layouts/15/WopiFrame.aspx?sourcedoc=/16/0094/WP06/Documents/MASTER_WP6_CONSOLIDATED.xlsx&action=default

- Technology Line leaders (in alignment with Building Block- and Use Case-owners) will ensure alignment and acceptance of requirements on Technology Line level.
    - by **September 15th** we will have a set of "confirmed" requirements in Sharepoint (for each Building Block), which is agreed within a certain Technology Line.

Important Notes and Reminders

- Handbook:

https://projects.avl.com/16/0094/07/_layouts/15/WopiFrame.aspx?sourcedoc=/16/0094/07/Administrative_Material/SCOTT_D_27.1_Project_Handbook.pdf&action=default

- UC specification –M7 (end of November 2017)

Regarding the Next steps

- Add meeting:
- http://its-wiki.no/wiki/WP6:_Industrial_Use_Cases_phone_status_August2017

- Project viewer (http://owncloud.unik.no)
- Suggestions for SP3
